

Institut für Gleichstellung und Gender Studies

The Institute for Diversity and Gender Studies of the Mozarteum University Salzburg is responsible for announcing and granting prizes for completed academic papers and projects, as well as, promoting artistic/scientific project proposals in the areas of feminist research, gender & queer studies or diversity studies. This offer aims to make visible research and artistic examination of feminist, gender, queer or diversity questions and – above all – should be understood as an invitation for young artists and scientists to engage themselves with these topics.
