Universitätsbibliothek Mozarteum

The link to the new remote access can be found on the [library page](#). If you want to use the library catalogue or digital resources from off campus, use the following link from now on: [Remote Access Catalogue & Digital Resources](#) (See screenshot on the left). Log in to the new window with your regular Moz-Online data (screenshot on the right).

After logging in successfully you will get an overview of the digital resources offered, including the library catalogue [MozSearch](#).

If you access the catalogue from here, you will have access to the resources integrated there that are subject to licensing (e.g. RILM, various digital journals & e-books). Don't forget to log in again to the catalogue itself to get the full number of hits and to be able to order media.

If you want to access other services outside the library catalogue, you are automatically authenticated as with the old VPN.
